T710A

Every necessary feature and function has been thoughtfully considered in this device, T710A combines instant communication and multimedia applications. Over 4G and WLAN networks, this radio is compact and slim, boasts loud and clear audio, intuitive operation, location sharing, instant messaging and long battery life. Compatible with the Android system, it is a cost-effective choice for business users like supermarkets, hotels, logistics, industrial parks, urban and property management, etc.

▶ KEY FEATURES

Affordable and Valuable

Designed specifically for businesses and organizations that need a reliable, easy-to-use communication tool, this radio is featured with "Necessity and Value" and provides necessary and valuable functions for daily and mission-critical use to improve performance and safety at affordable cost.

Push-to-Talk, Millisecond Response

The device offers instantaneous one-to-one and one-to-many voice communication. Unlike general radios, it enables users to instantly and easily speak their minds without words losing, and no need to wait for a "beep beep" to respond, which ensures instant and smooth communication, especially during an emergency.

Android platform with Open App Ecosystem

With its open app platform, users can access any app in the Google Play Store. What's more, the built-in software also supports extended functions like NFC, and Man-down only if the hardware integrates related sensors. It is affordable enough to allow you to outfit the entire team with efficient and smart tools.

▎▶ DETAILS

Connect Anytime and Anywhere

This device supports seamless communication anywhere with 3G/4G/WLAN/Bluetooth coverage.

Small and Lightweight

It is easier to carry, hold and use in one hand without burden.

Precise Positioning

The radio provides positioning services by using GPS.

Superior Audio Quality

With large speakers and louder, clearer audio with receive and transmit quality, this device allows your team to hear and be heard in any environment you do business.

User-friendly Buttons and Accessories Connection

• Dedicated PTT, Programmable buttons are put rightly at users' fingertips.
• Abundant auxiliary connections like earphone, Type-C, multi-unit charger, etc.

Large Battery Capacity, Power for Multiple Shifts

4000mAh high-capacity battery support long time working and standby, to let your device stay in the field as long as your team does and be handed over from shit-to-shit without charging.
